

Meet some of Sweden's most promising cleantech companies

Ambassade de Suède, 17 rue Barbet de Jouy, Paris 7e, March 21st

Sweden is quickly positioning itself as a world leader when it comes to cleantech innovations and the birth and growth of companies aiming at solving the global challenges within the energy and environment sectors. Soon we will bring some of these companies to your region.

The Swedish Cleantech Tour is pleased to invite you to the Swedish Embassy in Paris for an exclusive afternoon of cleantech startups' showcase and networking. We offer company pitches, insights into the investment scene in Sweden and a unique opportunity to meet one-to-one with young cleantech companies that are all addressing international markets, providing scalable solutions and have an interest in meeting investors as well as establishing business partnerships.

Agenda

14.30	Registration and networking coffee
15.00	Welcoming address Swedish Embassy Introduction and welcome Ms Ulla Hamilton, Deputy Mayor of Stockholm
