**Regarding Velo-City****The municipality of Tyresö supports Stockholm's application to arrange Velo-City in 2017**

With this letter I want to show my and Tyreso municipality's support for the City of Stockholm's application to arrange Velo-City 2017.

Cycling provide numerous benefits such as reduced traffic congestion, decreased use of fossil fuels, less air and noise pollution and helps to encourage a healthier lifestyle for the population.

Tyresö is situated 20 kilometers from the center of Stockholm. Cycling is therefore a very efficient mode of transportation as Stockholm is within cycling distance. We strive to support the growing number of people who chose to commute by bike by improving the infrastructure in both Tyresö and Stockholm.

I hereby sincerely support Stockholm's application to arrange Velo-City in 2017, and am firmly convinced that arrangement would benefit the whole region.

Best Regards

Fredrik Saweståhl

Major Tyresö municipality
