**Ämne:** Race for The baltic - accelerator program

Hej, som utlovat

### **THE BALTIC SEA CITY ACCELERATOR**

is a programme that brings together municipalities, solution providers, financial institutions and researchers to collectively work together on developing examples of how we can restore the Baltic Sea and increase sustainable economic development opportunities. This platform should be

- **Attractive platform** with access to global experts, finance, innovative solutions, and where we showcase municipalities' successes in appropriate forums
- **Accountable.** Municipalities will make a time commitment from political member and civil servant.

Vänligen,
